

vdx sentry

**Guiding you from
volts to value.**

BESS portfolios are booming, but finding experts to manage and monitor them is a challenge: Limited manpower, time crunches, evolving tech, and the need for specialized skills.

I'm the ⚡ vdx sentry,
a data-driven decision companion, trained on a decade of battery data. I'm keeping an eye on your asset portfolio, alerting you to the essentials, so that you can focus on what truly matters.

THREE SHIELDS OF PROTECTION:

I will categorize the main risks with simple calls to action:

Safety:

Stay ahead of safety issues with proactive monitoring.

Performance:

Boost performance through real-time insights.

Lifetime:

Maximize your assets' lifespan.

SEAMLESS INTEGRATION

My traffic light system ready to use:
